# USA Multicultural's Mission and Vision

"We value the wellbeing of every member in our community and know your self-respect is of the utmost importance.

Our efforts are to enhance, nourish, and strengthen the people we serve. The connections and self-awareness we inspire are essential to the abundance and growth we're all entitled to pursue.

We believe this is the first step towards cultivating the change we all yearn for. Through our experiential education, artistic activities, and local business development we make a fuller life possible for every one of us.

Are you ready for more from your life now?  
Because when we come together and act as one -- we finally get things done."

"Did you know that with so many competing companies, it's become harder to win brand loyalty from the average consumer. Is your current marketing doing its job to grab the attention of your audience and ideal market?"

## 2) Re-establish strong psychological ties

- remind your local members and customers how much they love your organization or brand.
- keep your business constantly in front of your community.
- show your customer a personal touch and leave the huge, faceless company image behind.

"Our diverse community is a haven for multiculturalism. With so much political and racial unrest, show your community you care."

## 3) Build local ethnic solidarity

- the local Latino community has a buying power that's steadily growing per capita every fiscal quarter, estimated at 55% of overall community spending
- according to [DataUsa.io](https://datausa.io): The population of Escondido, CA is 51.3% Hispanic or Latino, 36.5% White Alone, and 6.77% Asian Alone.

"If they don't know who you are or what you do — they won't buy from you. Make it easier for customers to have a reason to invest their dollars in your products and services."

We look forward to partnering with you for 2024.

If you have any further questions or concerns, please feel free to call us.
